New information type – electrical diagram.....	5

General

This document outlines the new features in Multi 2212 which can be seen in the Multi user interface.

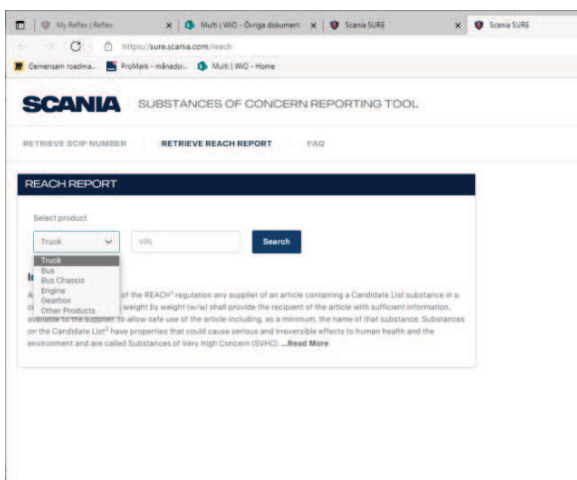

New features in the parts catalogue

The screenshot displays the Scania parts catalogue for a '01-01-5023 Cylinderhuvud, XPI [DC13]'. On the left is a technical drawing of the cylinder head assembly with numbered callouts (1-20). On the right is a table listing the parts:

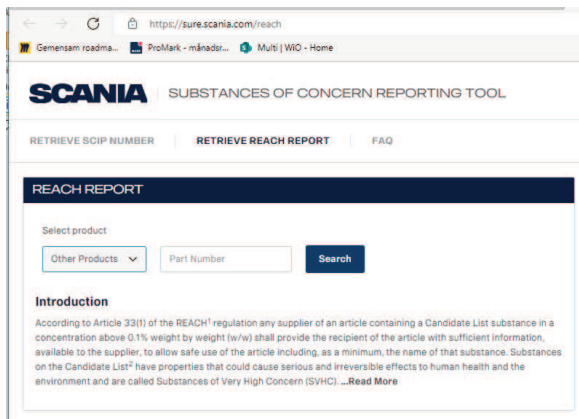

Pos.	R...	Art. nr	A	Enhet
		2452544	X	1 2234518 C
		575989		1 575989 C
1		1865117		1 *
2		2326594		2 *
3		1762272		2 *
4		2819310		4 1925597 *
5		2290919		2 *
6		2290920		2 *
7		2040258		2 *
		2040259		2 *
8		1852797		2 *
9		2225795		4 1920860 *
10		2196243		2 *
11		2865746		2 1519700 *

20		2212238		6 S
				1 F

Re-introduction of the REACH icon, now connected to SURE (sure.scania.com/reach).

The screenshot shows the Scania SURE website. The header includes the Scania logo and the text 'SUBSTANCES OF CONCERN REPORTING TOOL'. Below the header, there are two buttons: 'RETRIEVE SCIP NUMBER' and 'RETRIEVE REACH REPORT'. The 'RETRIEVE REACH REPORT' button is highlighted. Below this, there is a 'REACH REPORT' section with a 'Select product' dropdown menu. The dropdown menu is open, showing options: 'Truck', 'Bus', 'Bus Chassis', 'Engine', 'Gearbox', and 'Other Products'. The 'Other Products' option is selected. To the right of the dropdown menu, there is a text box for 'VIN' and a 'Search' button. Below the dropdown menu, there is a paragraph of text explaining the REACH regulation and the purpose of the SURE tool.

When you click on the link to SURE, you will be taken to the homepage of the site. Select "Other products" in the drop-down menu in the illustration above.

Introduction

According to Article 33(1) of the REACH¹ regulation any supplier of an article containing a Candidate List substance in a concentration above 0.1% weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance. Substances on the Candidate List² have properties that could cause serious and irreversible effects to human health and the environment and are called Substances of Very High Concern (SVHC). [Read More](#)

The field to the right is then activated, allowing the part number to be entered.

☐ Enkelt punkt 2 Underhållspunkt

After selecting a market, select a workshop using the drop-down menu under the "Workshop" field.

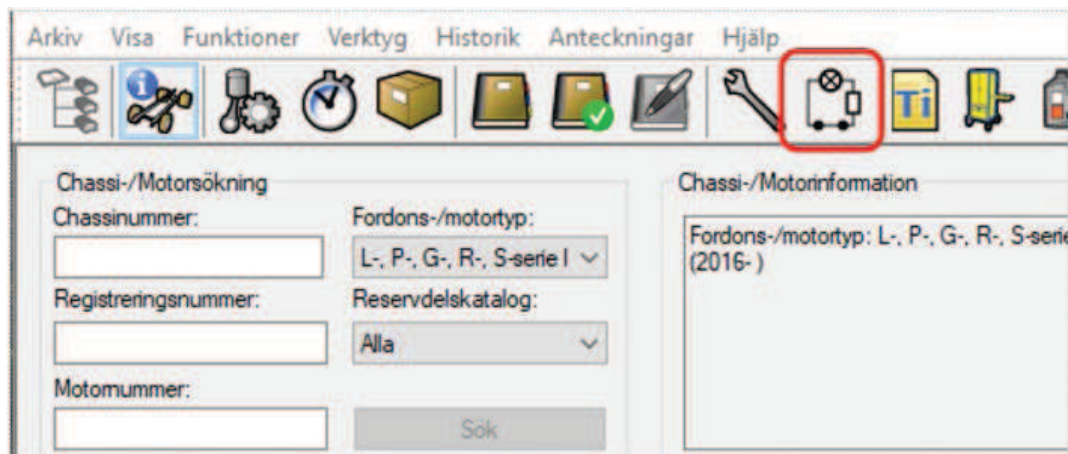

Finally, select the bus bodybuilder in the field under "Bodybuilder".

New features regarding maintenance forms

This issue is the last with updated maintenance forms for periodic maintenance. There are no planned changes, adjustments or additions for these.

The forms for flexible maintenance will be removed from Multi and will then only be available in SWS (Scania Workshop Suite) where they are already available today. This is because the workshop must be connected in order to handle flexible maintenance.

New information type – electrical diagram

A new information type has been introduced – electrical diagram.
